Date **10-09-2025**
Number **777**
Priority Type **Urgent**
Subject **Seeking approval of Nu.101,390.00 for the cost of spare parts and labour charges of vehicle No.BG-2-A0975.**

This is to apprise the Management that, our registered vehicle No. BG-2-A0975 (Eicher Jumbo) was smoothly operating as usual, but after returning from Thimphu to its own destination Phuentsholing, Mr. Yeshila (driver) has complaint about the vehicle problem of consuming excess engine oil. Thus we have taken the vehicle to the M/S Rabten Engineering Workshopfor necessary checkup, who is the main authorized dealer of Eicher Company here in Phuentsholing. Their technicians have checked the vehicle thoroughly and advised us toopen half engine to replace some spare parts and fan clutch assywith fan controller for the above problem.

In view of the above matter M/S Rabten Engineering Workshop has submitted the negiotated/estimated rate Nu.101,390 (Ngultrun One lakh one thousand three hundred ninety) only for the above repair and maintenancecost including the labour charges. The estimate copy of the above firm is also attached herewith for your kind reference.

Therefore, we would like to seek a kind approval to carry out the maintenance works immediately from the M/S Rabten Engineering Workshop Phuentsholing, who is the main authorized Eicher dealer in Phuentsholing, who deals only with the Eicher vehicles. Regarding the budget, as ontoday we have the budget balance of Nu.206,212.00 for repair and maintenance of vehicles kept under Phuentsholing GPO for the year 2025. With sufficient budget, we would like to seek kind approval to do repairing works from Rabten workshop who is a Authorized Eicher vehicle dealer in Phuenthsoling.

Submitted for your kind approval please.

Remarks: **The CEO has observed that the same vehicle has undergone repairs recently. You are requested to submit a detailed repair history of the vehicle for the past few months, including the nature of each repair, dates, and the service provider, and the associated costs. As per the CEO's instructions, you are advised to exercise extra diligence in reviewing the frequency of maintenance and to verify whether each repair or service is genuinely necessary. With all the detail history you may resubmit the same and ensure that all submissions are accurate, comprehensive, and well-documented for proper review of the CEO**

Remarks: **Sir, the said vehicle engine was repaired from Rabten Engineering workshop with amount nu. 185,656 with their warranty period of 6 months. On 01.04.2025 we repaired Cable wiring dashboard, chassis hardness and EGR assy amounting nu. 13,814 and also on 09.06.2025 we repaired pressure sensor and temperature pressure sensor with amount of nu. 40,983. After doing above maintenance the vehicle was functioning well however recently it has started consuming excess engine oil and started giving the problems. Then we have taken the said vehicle to the Rabten Engineering workshop, the authorized Eicher dealer for check up and maintenance. Accordingly, their Technicians and Engine machinic checked thoroughly and found that we have to open half engine and do the engine repairment. We questioned them on why this vehicle is having such problems and we were told that this BSIV Jumbo model has a such common problem and it breaks frequently. Therefore, considering the importance and nature of the such common vehicle problem submitted for kind approval to keep vehicle in running condition and also to keep ready for our upcoming BCSEA collection and delivery please.**

Remarks: **Approved in the capacity of Officiating CEO. You are requested to promptly and closely monitor the transport unit to ensure it generates revenue and operates as a profit center rather than a cost center. Please also review genuine cases leading to such high repair and maintenance costs. For reference kindly refer to the email received from Dasho, and attach the same with official copy documents for future reference.**
