# 28th Economic and Finance Committee

**Date:** 04/08/2025

**Venue**: Conference Hall

**Members present:**

1. Mr. Thinley Tobgay, Head, Finance Division, Chairperson
2. Mrs. Wangmo, Head, Postal Operation Division, Member
3. Mr. Lham Wangchuk, Regional Manager, Western Region, Member
4. Ms. Nima Zangmo, Head Philately, Member Secretary

**Invitees:**

1. Mr.Damcho Tshering, Marketing Expert

**Agenda: 3D Post Cards Proposal and costing (Dochula and Blue Poppy)**

**Discussion:**

The Marketing Expert and Head, Philately Division briefed the committee members on the printing of new 3D Post Card designs and ideas which is shared by Ms Nguyen Thanh Loan (Ms Loan) from Vietnam. The minimum quantity required is 300 nos for each design and the production time needed is 20 to 30 days.

The Supplier (Ms Loan) shared that she has Charter flight from Hanoi to Bhutan on 30th August 2025 and if the orders are placed within the above mentioned time then Bhutan Post may not have to pay high shipping charges including the rate, taxes and duties. The supplier will charge $125 as carrying charges for 500 postcards which will be around 25kg. This will be more profitable compared to using Fedex shipping service. The cost price given by the supplier ranges from $2.3 - $ 3.3 for each design. Therefore, the proposed rate is based on higher rates ($3.3) which can be less depending on the design of the postcards.

Regarding the payment, Ms. Loan has requested Bhutan Post to pay her during the delivery of consignment in dollars. However, the committee felt that it would not be possible to pay her in dollars as cash on delivery. Therefore, the committee discussed paying production charges through fund transfer after receiving the consignment.

The proposed rate is discussed in detail as per the **annexure attached below**.

**Decision:**

The committee would like to recommend a selling price of Nu. 500 per post card after keeping a 60% profit margin. Since, this is a pilot phase in producing and selling a 3D post card by Bhutan Post, the committee felt that charging high prices may affect the sale of post cards in the market. However, with every production, price may vary depending on the shipping charges, taxes and duties.

**Annexure;**

| Sl no. | 3D Post Cards Design | Cost price design ($) per post card | Printing cost for 250 nos each ($) | Shipping charge $125 (for 500 nos) | Total Cost USD | Total Cost in BTN @89 | Cost Per post cards (Nu.) | 60% margin on total cost | Price (Nu.)per postcards after 60% margin | Proposed Selling price per Post Card |
|---|---|---|---|---|---|---|---|---|---|---|
| 1 | Dochula | 3.30 | 825.00 | 62.50 | 887.50 | 78,987.50 | 315.95 | 189.57 | 505.52 | **500.00** |
| 2 | Blue Poppy | 3.30 | 825.00 | 62.50 | 887.50 | 78,987.50 | 315.95 | 189.57 | 505.52 | **500.00** |
| | | | | **125.00** | | **157,975.00** | | | | |
